Increased Risks / Risk Assessments	Questions / Break
Questions / Break	ILSM & Fire Watch Procedures
Building Codes	Exercise Example
Fire Stop Systems	Discussion & Lessons
Building Systems	Evaluations & Questions

# Program Objective

The Healthcare Construction Certificate is a one-day seminar designed for contractors and hospital construction supervisors to provide knowledge of issues pertaining to construction in a healthcare environment.

The attendee will receive a certificate of attendance, hard hat decal, wallet-size proof of certificate and a link to a pdf copy of the presentation PowerPoints.

This seminar will be of interest to all contractors, their construction supervisors, facility managers and the staff of the engineering and maintenance departments. It will focus on healthcare construction and the operation of its critical life support systems and provide a refresher to the various code and recordkeeping requirements.

# Login Information

A login url link will be sent to you via email once your registration is processed. You will also be sent a link to the AnyWebinar app and it is recommended that you download that to receive the webinar. It is also recommended that you use Google Chrome as your internet browser. You must have a quality wifi signal. The sound will come through your computer speakers, but there will be an option to call in via phone for the sound once you're logged in.

# Cancellations

You must cancel your registration by email sent to [info@whea.com](mailto:info@whea.com). **There will be no refunds after the program pdf file link has been sent to attendees.** If the program is cancelled for any reason, refund is limited to the program fee.
